

Earth Partnership for Schools Schoolyard Restoration Training

Building wildlife habitat at your schoolyard!

Bring a team from your school to join the *Center for Land-Based Learning*, *Soil Born Farms*, the *U.S. Fish and Wildlife Service* and *FCUSD & SCUSD teachers*

June 21 - 25, 2010
8:30 - 4 M-Th, 8:30-2 F

Based at beautiful Soil Born Farms along the American River Parkway

Learn the ins and outs of creating a restoration project on school grounds through:

- hands-on, content standards-based lessons designed to extend and enhance your existing curriculum
- field trips to local restoration sites and schoolyard habitats
- meeting a network of engaged educators
- learning about funding and partnership opportunities

\$25 - includes curriculum materials & lunch everyday

Past participants are saying:

"I learned so much at the institute about native plants and establishing a rain garden."
"Who knew I could accomplish an important math lesson while teaching kids how to install drip irrigation?"
